

Jimmie Coleman

AI Engineer | DevSecOps Engineer | CKA

Self-taught cloud security, AI/ML, and DevSecOps—earning CKA and Security+ (AWS AI Practitioner in progress) while working full-time. Built a 24/7 autonomous AI security platform with a fine-tuned LLM that coordinates specialized agents handling DevSecOps tasks without cloud dependency or data leak risks. Built DevSecOps-hardened portfolio: linkopsmlm.com (Live 8 AM–4 PM EST)

PERSONAL PROJECTS

GP-Copilot – Solo Developer (05/2025 - Present)

- **24/7 AI Security Scrum Team:** JADE (Qwen2.5-7B, 772k examples) coordinates autonomous agents handling 90% of DevSecOps tasks without human intervention. Specialized in completing mundane and repetitive tasks. LLM agnostic, so engineers can use JADE or bring their own LLM.
- **JSA-CI Agent:** Monitors GitHub Actions via webhooks + API polling, auto-remediates workflow misconfigs, exposed secrets, and vulnerable dependencies.
- **JSA-DevSecOps Agent:** Monitors Kubernetes, OPA policies, and IaC for violations, applies fixes based on rank-based delegation (E-S), and escalates to Slack when needed.
- **Stack:** Docker, Kubernetes, Helm, GitHub Actions, OPA, Terraform, AWS Localstack | PostgreSQL, ChromaDB | Claude, Prometheus/Grafana, DockerDesktop, WSL, VSCode.

WORK EXPERIENCE

HVAC Preventative Maintenance Technician

JLL - NAS Jacksonville Naval Base – Jacksonville, FL

06/2016 - Present

Achievements/Tasks

- Managed and maintained over **600 HVAC units** on a 3-month cycle, ensuring operational uptime across high-security military infrastructure.
- Entrusted with **security clearance**, working independently in combat-simulator areas, and maintaining access control protocols.
- Tracked maintenance via digital systems and logs, ensuring regulatory and **safety compliance** across all serviced units. Continuously researched core reasons for failures.
- Demonstrated exceptional reliability and discipline over 10+ years of continuous government-contracted service.

TECHNICAL SKILLS

AI/ML Integration

LoRA fine-tuning, progressive merge, RAG (ChromaDB), Claude API, Ollama

Security Driven Development

Gitleaks, Trivy, Semgrep, Kubescape, OPA/Rego, Gatekeeper, CIS, NIST, SOC2, PCI-DSS, HIPAA, FedRAMP

DevSecOps Tools

Docker, K8s, Terraform, GitHub Actions, Trivy, Helm, AWS LocalStack, WSL

Observability & Logging

Grafana, Prometheus, Structured Logging Pipelines

CERTIFICATES

Certified Kubernetes Administrator (CKA) – Linux Foundation (06/2025 - Present)

Credential ID LF-9ac2czbmbr

CompTIA Security+ (SY0-701) – CompTIA (02/2024 - Present)

Code: 2ZF5HS1SXMf11WZJ -- Verify at: <http://verify.CompTIA.org>

SUPPORTED CAUSES

Helping families affected by Childhood Cancer

Empowering People with Down Syndrome

Automation to Reduce Human Burnout
